What are some of the successes of this experiment?

a.

b.

c.

What were the failures of this experiment?

a.

b.

c.

Name: _____

Date: _____

What are the ethical implications of this experiment?

a. _____

b. _____

c. _____

For each section above, rank your list from 1 to 3 where “1” represents most important and “3” is least important.

The main point of the article entitled article title is main idea. The most beneficial aspect of this experiment is most important benefit. Secondly, 2nd most important benefit supports the work of this experiment. Lastly, the author also raises the important point that 3rd most important benefit.

However, there were drawbacks to this experiment. Most importantly, most important drawback must be considered. Additionally, 2nd most important drawback is a negative aspect to consider. Finally, 3rd most important drawback was a failure of the experiment.

This experiment raises the following ethical concerns for me. Firstly, I need to consider main implication. It also makes me think about the impact of secondary implication. In conclusion, one should also consider the impact of final implication.
